

ASSET4 *assetmasterProfessional*™ ESG News Monitoring Service

While a company's ESG performance is based on long-term and strategic management decisions, day-to-day events also play an important part in its valuation and reputation. Having the ability to dynamically monitor events based on very specific ESG criteria allows you to stay ahead in your analysis, The ASSET4 *assetmasterProfessional*™ news monitoring capabilities enable investment professionals to monitor the environmental, social and governance (ESG) news flow for any companies within their portfolio or their portfolio as a whole.
